- Pattern #1** — General use, assembly, inspection, sorting, sharp, plain finished points.
- Pattern #2** — General use, sturdier points. Slightly thicker and wider tips than Pattern #1.
- Pattern #3** — Handling miniature parts. Points have been honed and are very sharp.
- Pattern #3C** — Shorter version of Pattern #3.
- Pattern #5** — Handling micro-miniature parts, beading, knot-tying, narrow needle-like points.
- Pattern #7** — Handling miniature parts. Curved shaped sharp points permit the resting of hand during use.
- Pattern #GG** — Fine work, beading. Narrow indented shanks. Narrow long points.
- Pattern #AA** — Assembly, inspection, sorting, soldering small parts. Round tips. Tapered, beveled edges.
- Pattern #MM** — Similar to Pattern #AA, but heavier, slightly longer shanks. Corners of handle are rounded.
- Pattern #OO** — Slightly shorter version of MM, relatively heavy points. Tapered shanks with beveled edges.
